SUFFERED A YEAR WITH PIMPLES

On Face, Arms and Shoulders. Cuticura Healed.

"For about a year I suffered with pimples on my face, arms and shouldess. The pimples on my face were small, while on my arms and shoulders they were very much larger. After a day or so they would fester, and burned a great deal.
"A friend advised me to try Cuti-

cura Soap and Ointment. After using them about a week I could see a great improvement. I continued using them and now I am completely healed." (Signed) Miss Frances C. Ferree, West Point, Kentucky.

Cuticara Scap, Ointment and Talcum promote and maintain skin purity, skin comfort and skin health often when all else fails. and a violin quartet from the Pittsburgh Musical Institute.

PIMPLES

ples is beyond me," says Peter-

Every druggist in America who cares to speak freely should tell you that one 60-cent box of PETERSON'S OINTMENT is guaranteed to banish pimples or other skin eruptions, or money back—and it won't take long to do_it.

The mighty healing power of Peterson's Ointment in skin disease, Eczema, Salt Rheum and Old Sores is almost beyond belief, and the small price puts it within reach of all.

Dr. W. Burg, of Erie. Pa., writes: "I had suffered from Ec-zema of the left ear and scalp for over twenty-five years, but a small box of Peterson's Ointment has entirely eradicated it." All druggists are authorized to guar-ange it. Mail orders filled by Peterson Ointment Co., Inc., Buf-fald, N. Y.

Questions and Answers.

Receiver Range Limited. Q. I have a tuner set made up a

explained by the Bureau of Standards for a crystal detector, set. A standstations? — T. E. S.
A. I do not understand why you

have a dry cell in the circuit; none was required in the diagram referred to, and would be of advantage in such a hook-up. Otherwise your conforwarded to you for comparison. It is unlikely that you will hear Washington at such a distance, particularly the radiophone stations. Connections sent may enable you to hear NOF. By making a loading coil of No. 24 double cotton-covered wire similar to the coil you now use for tuner, and connecting this, one end to aerial, the other to your present coil, may enable you to reach 2,650 meters. NAA (Arlington night). transmits on this wave length, spark code. You may then hear WWX, code. You may then hear WWX, Washington Postoffice, on 1,160 meters, radiophone. At your dis-tance from large broadcasting stations a vacuum tube set would prove much more satisfactory. Receiver for Long Distance.

Q. Please let me know the best receiving set on the market and the nearest broadcasting station to Ship-

stations in Washington, you are sit-uated almost between WSN, Norfolk Shipowners' Radio Station; WAAO, Charleston, W. Va., and WHD, Mor-gantown, W. Va. Directly north and this side of Lake Eric from you are THE WEATHER thunder Station Call,

Q. Who is 3ZI? N. M. A. Roy C. Corderman, Hagers-town, Md. Loud Spenker Effect.

Q. Can a galena set be made any way to use without phones and hear

connection with a crystal detector, although in all respects it is vacuum tube hook-up, requiring A and I batteries, rheostat and other parts as for the usual tube circuit. To avoid this the experiment has been made with some success of placing one side of the phone receivers into the mouth of a large phono-graph horn, from which to: sound would appear to be amplified. This would, of course, he satisfactory only when signals through the phones were exceptionally loud.

Q. Please send me a diagram of Armstrong Regenerative Receiver Patent No. 1.113,149, using a vario coupler and two variometers. the diagram please mark the pri-mary and secondary of the vario-coupler and variometers. I have a blue print of the circuit mentioned above but the primaries and gec-ondaries are not marked, so before I start wiring the set I better make sure of the connections. S. W.

A. A diagram of a standard re-generative circuit embodying the Armstrong principle is being forwarded. The original Armstrong circuits have been varied to suit particular hook-ups and are satis-

factory. The originals used by Armstrong may be obtained only oy application to the Patent Office. For distinguishing the primary from the secondary, on variometers or variocouplers, the stationary part called the stator is practically always the primary; the rotating coil called the rotor, is the gecondary.

Q. Who were transmitting "Instructions in making a receiving set," about 3 p. m. July 7, and a concert from 10:20 to 10:50 p. m. July 7. E. A. K.
A. Any reader who was transmitting at the above hours will please answer the question for E.

Receiver-Limitations. Q. I have a crystal set which I made from directions published by stheet northeast, urges that "Jocko or Dickie" be selected as the monkey babe's name.

"A 5-year-old child, upon being told about the green monkey, said 'call it Pinky Sassus because I have a toy dog by that name,' " writes P. E. F., of Alexandria, Va. "Darwin." "Greenwich." "Jazz" and "Delirium Tremens" are among the most generally suggested ones, thus far, and it may be that the cofficial name for the new arrival at the Zoo will be selected from these. Nearly fifty suggestions of the several turns of wire to the primary of the several turns of wire to the primary of the several turns of wire to the primary of the several turns of wire to the primary of the several turns of wire to the primary of the several turns of wire to the primary of the several turns of wire to the primary of the several turns of wire to the primary of the Bureau of Standards. I receive the following stations: NOF, WMU, WJH. WPM and the Church of the Covenant. The latter I receive faintly. Can you tell me why I can not receive NAA, WWX and WEAS.

(b) Please advise me through your columns who NSF, HUA and 10 p. m. time and 10 p. m. time and weather reports on 2650 meters. It would be necessary for you to add a coil of the Bureau of Standards. I receive several turns of wire to the primary several turns of wire to the primary of your tuning coil, and insert a variable condenser across the secondary to reach this higher wave length. These signals are spark code. This may also enable you to receive WWX on 1160 meters radiophone. Both stations transmit on wavelengths far beyond the range For Insurance Men

A code of insurance laws for the
District to prohibit agents from theating policy holders was urged by Insurance Commissioner Burt in the control of the commissioner burt in the

bers of the Field Club of the Mutual Life Insurance Company, at the Raleigh Hotel.

Commissioner Miller declared that one of the greatest needs in the District is an adequate insurance code, which would enable contemplative insurance holders to receive standard policies. It was pointed out in the meeting that such a code would abolish what is such a code would abolish what is styled as "rebating and twisting," a practice which is used among "shady" agents to deceive policy holders. Lawrence V. Lampson

talcum powder, may also be con-tained in the paper of your maga-zine, the rubber it, your auto tires and the china on your table.

ONE WAY TO TUNE YOUR SET RIGHT

For practical helps in adjusting the radiophone set, Ralph T. Good win suggests: Sea: the tube in the win suggests: Sea. the tube in the socket. Turn the filament rheostat until a slight hiss in heard in the phones. If the tickler coll is then turned at an angle of 45 degrees with respect to the tuning coll. and the variometer rotated, a slight click will be heard. This sound, which resembles that of escaping steam, indicates the sed in in proper working. ground connection, one dry battery.

When the battery is connected to ground and aerial plugs I hear a roar.

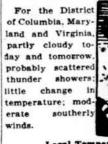

By what is known as the carrier by what is known as the carrier

The variometer is then turned un-til both these noises stop. The next adjustment is by the tickler coil only. The rheostat is then adjusted to bring in the signals loudest.

These very practical suggestions may help solve some of the problems common to all listeners-in.

SWITCH CONTROLS RADIO DISCORDS

rograms in certain broadcasting stations do not realize perhaps that sad failures on their part do not necessarily become known to the outside world. Saving a hard-earned repu-tation, operators of some of the Eastern stations have a switch at hand which confines the music of the orchestra or soloist to the studio should the musicians get out of tune. A more frequent use of the cut-out switch is for speakers who forget the restrictions on improper use of the radiophone for all but general broadcasting purposes. These stations, however, do not entirely dis-appoint the great numbers of listen-ers-in in the invisible audience, for ers-in in the invisible audience, for the switch likewise connects the set another room, where a pho the careless performers in the n

MRS. STOKES WINS **VAST PROPERTY**

JULY 12, 1922.

Court Rules Signing of Deed Was Due to Compulsion.

NEW YORK, July 11.-Victory. full and complete, today crowned the long up-hill fight waged by Mrs. Helen Ellwood Stokes, beautiful young wife of William E. D. Stokes, to regain her dower rights in his vast realty holdings. A decision handed down in the

Supreme Court today after a three months' trial restores to Mrs. Stokes one-third interest in fifty parcels of real estate, including the Hotel Ansonia, estimated to be worth between \$6,040,000 and \$10,000,000. Compelled by Threats.

According to the testimony o Mrs. Stokes, she was compelled relinquish her rights to share Stokes' property by his threats physical violence, three ter their marriage in 1911.

In the opinion accompanying his decision. Justice Cohalan said:

"It appears that on the morning of May 17, 1911, while Mrs. Stoke was still in bed. Stokes came to her and had her sign the deed in ques-tion. I have arrived at the belief that the subsequent deeds to the corporation were a subterfuge and in no way released her right of dower. • • "The evidence fully sustains that he controlled her actions, at least in the early days of their marriage and in sign-ing the deeds she did so under his influence and had no knowledge that she was releasing forever every right she had in the property." Will Inherit \$2,500,000.

Under the decision Mrs. Stokes will inherit, at the death of her husband, who is 72, about \$2,500,000. irrespective of the inheritance of her two children, James and Muriel now in Denver, Colo., with grandmother, Mrs. Arthur Miller. Last year Justice Finch denied Stokes' plea for divorce and granted Mrs. Stokes a separation and cus tody of the children with \$18,000 a year alimony. Suit brought by Mrs. Stokes for an increase of this award to \$75,000 a year is now pending. ORDERED TO PLACE

STORES ON WHEEL Louisiana avenue merchants who

have built up elaborate fruit and vegetable stands must put their shops on wheels, according to a ruling handed down by the Dis-trict Commissioners yesterday. The Commissioners have drawn

The Commissioners have drawn up a set of specifications which will make the stands movable, the reason being a desire to have the streets clear over the week-ends.

A hearing on the question was held on June 29 at the District building at which the merchants appeared in protest. There are approximately 50 merchants along Louisiana avenue between Ninth and Tenth streets.

Get Some Sunshine Into Your System

Brighten up on the inside—freshen up your blood tune up your nerves -rejuvenate. Your success demands that you keep up and develop your vitality. The man with the clearthinking mind and the untiring energy is the one who realizes the dreams of

To those people who are lacking in the above qualities, "Pep Phos' is recommended. It is a tonic of remarkable "Pep" building qualities. It freshens the blood, tones up the nerves, sharpens the appetite and tones up the system. It is positively guaranteed and for sale at Peoples and other good drug stores.

Many Mothers Left in Weakened Condition

Many, many letters similar to the following recommend the Vegetable Compound as a wonderful medicine for bringing the mother back to nor-mal health and strength.

It is an excellent restorative, contains no harmful drugs and can be taken in safety by a nursing

mother.

Thousands of mothers who have regained their strength by taking it are its best recommendation. Very likely you know some. Why not take it yourself? "Will Gladly Answer Questions"

"Will Gladly Answer Questions"
Olney, Ill.—"For over a year after my boy was born I was troubled with weakness of the female organs. Also my stomach would bloat up and I had heartburn, headache, backache, and simply could not do anything. I saw your 'ad.' in the papers and read what your Vegetable Compound did for others, so gave it a trial. After the first few doses I could tell a change. (Some might think this impossible, but it is true.) I took two bottles of Lydia E. Pinkham's Vegetable Compound and felt so fine that I neglected to take any more for about a year. This last winter I had pains again so I have been taking it to relieve them. I tell everyone I hear complaining of female troubles that it is grand. If any woman asks me

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Lynn, Massachuselle information.

These pains had an effect on me to such an extent that very often I was unable to stand on my feet to do my housework, and at times I was compelled to lie down for short periods. I found Lydia E. Pinkham's Vegetable Compound very helpful and recommend it highly." — Mrs. LORETTA B. SIMONS, 646 S. Belnord Ave., Baltimore, Md.

Ave., Baltimore, Md.

"Cannot Thank You Enough"
Allentown, Pr.—"After my last baby was born I lost weight and was in a very run-down condition. After taking the second bottle of Lydia E. Pinkham's Vegetable Compound I began to gain strength and flesh. In the past four months I have done all my own housework and do an extra wash besides. I do not feel at all like I used to and I cannot thank you enough for my health. My friends ask me what I am doing and I recommend your medicine."—Mrs. Wm. STECKEL, 241 Elliger St., Allentown, Pa.

ohm phones, a galvanized wire forty feet high and seventy-five feet long. twenty feet of insulated copper wire for lead-in, a seven-foot rod for Can you tell me why it is I can't hear Washington fifty-five miles away, or what I can do to hear the distant

on.—R. E. S.
A. In addition to the broadcasting

this side of take Erie from you are no less than twelve radiophone broad-casting stations, within a compara-tively few miles of one another. The nearest of these stations is approximately the same distance as Washington, namely, 142 miles. You should therefore have a vacuum tube set with one or more stages of amplification to insure any regularity of reception of radiophone messages. No recommendation of particular sets on the market can be given, but if little you desire to purchase parts and construct a home-made set the wiring diagram being forwarded is suggested.

loud signals, that is with a loud speaker? H. J. A. An amplifier may be used in

his ambition.

AFTER BABY WAS BORN

questions about the medicine I will gladly tell her what I know."—Mrs. CHARLES VAUGHN, Olney, Ill.

Baltimore, Md. — "I first used Lydis E. Pinkham's Vegetable Compound for general weakness following the birth of my first child. Later on the advice of my mother I used it for a dull pain in the small of my back and for a bearing-down feeling. These pains had an effect on me to such an extent that very often I
